

[LETTER ORIGINALLY SENT ON MARCH 31ST THROUGH A PERSON I'VE MENTIONED PRIOR, AGAIN CERTAIN THINGS WILL BE OMITTED FOR PRIVACY. ALSO YES THIS IS THE FONT I USED ORIGINALLY.]

to charlie & kenny:

um. hi i guess??

okay so first off please stop stalking me its been months, i have no idea why you're still on it, no im not trying to copy you. im literally minding my own business and i keep forgetting you two exist.

please stop being weird about me liking the fragile. i have the right to enjoy it. thousands of other people do. its been 6 months and i have the right to enjoy an album and a musical artist i enjoyed prior to our break up and all. just like i had the right to take a break from listening to nine inch nails for like a month and a half, and just like i had the right to put PHM in my taglist (months ago now) because i just simply preferred not to see it. i didn't do it to get back at you. i dont do shit to get back at people. that's not who i am. you used to know me so i thought you knew.

and stop pqrting me. i promise you you're literally just gonna feel better once you stop staring at my stuff. im doing my own things now and im trying enjoy myself. i understand im probably harder to avoid considering more people follow me but?? either way thats not something **I** have to respond for. i don't have to accept being stalked and treated like subhuman garbage because of you feeling bad. i have my own life. and you know it would not be such a big problem if you didn't make it one and start acting weird about me on main??? like, you acknowledge that the only reason i saw what you've been doing is because im still being pqrted???? of course thats gonna be a concern??? like if you wanna complain about me so badly (which you have the right to. i do believe you have the right to be upset. so do i, for my own reasons.) just screenshot my tweets and just... keep that stuff on priv, jesus christ.

like i blocked you on all accounts i could find for a **REASON**. i want this to be over. but for some reason it seems like you don't? why are you both still at it? to charlie, why go on about me "stealing stuff" from you. i really didn't mean to upset you or steal your stuff, i think you have the right to be upset obviously, but you don't need to be doing all this. i'm upset. i'm not gonna pretend like i'm not. and i'm tired of having to constantly deal with your stuff even when im trying to move on. why are you so insistent on me being this big monster that only ever did stuff to upset you? i did stuff to make you happy, i always try to do stuff to make people happy. sometimes i mess up, i've messed up quite a bit in my life, even if i didn't mean to, but i want to grow past that. and i want for you to grow past that too. i don't think you deserve to have every single little thing you did held against you. neither do i. neither does every single confused kid on the internet. the world fucking sucks right now, we all know that. don't take it out on me.

you've been acting so out of left field ever since i left. both of you. why? what are you achieving by obsessively stalking me? what are you achieving by taking my profile toyhouse codes, kenny? like is it supposed to be some sort of revenge for me taking charlie's codes? like, you know i didn't intend that with any ill will. i obviously fucked up and im willing to admit it, because even if i didn't aim to, i hurt charlie by doing so. and im sorry, i do sincerely regret it. even if i didn't mean to or didn't know, you do have a right to be upset. you know what you have no right to do? you had no right to deadname me and then use my right name next to it and turn it into a south park joke. my view of you drastically changed ever since then.

tell me, what am i supposed to think after that? it was so simple to just. use my correct name and not turn it into a big joke. and i need you to understand that sorta stuff has a big effect on people. what you've been doing hurts me, and im sure you know that.

also, celebrating a half a year breakup anniversary is odd. i don't know why you think that's okay either. or any of the stuff you've been doing, honestly. like, you know this is the third time i have to contact you through **[NAME OMITTED]** because of your actions, right? like if you want to respond to this letter then fine, but you'd be better off saying sorry to her first because this is the third time i have to contact her about this mess.

so let me tell you one thing. im not some monster trying to ruin your lives. you're currently the ones stalking me. and you've been getting away with doing all this and making fools out of yourselves on main for three whole months now. but im not here to ruin your life and i don't want for you to think i am (please don't think so), i am simply upset, as is to be expected after having to face treatment like this for an extended period of time.

i'm here to say: you two do something like this one more time and i'll be forced to either go public with this, or let our friends know what you've been doing. and now, please don't take this as a threat. i want to refrain from doing this as much as possible. this is why you're getting told this only now. ***it's an ultimatum.*** i don't want to resort to it, believe me, i just want to move on, no more public confrontation, no more stupid arguments, no more of this. but for us to do so, you need to understand there will be consequences ***IF*** you keep doing this. it's a point i don't want to reach as much as you don't, but if you continue messing with me *i will* be forced to.

all of this has had a big effect on me. like, after what kenny did in november i was going through a panic attack so harsh i couldn't go to school. this stuff has affected me not only mentally, but physically as well. i'm guessing it probably has affected you too. issue is, you're the ones escalating it and im currently trying to mind my own business. i don't have to deal with being called all kinds of weird things just because you think im a monster.

this next message goes for the both of you, by the way:
whatever happens next is up to you. if you don't let yourself experience happiness, then you will not be happy. if you don't try to change anything then **NOTHING** will change. please stop this. i don't want this go any further. that's why i wrote this. that's why i desire to handle this all privately. i don't want a repeat of may. and i don't want for you to spend the rest of your lives obsessively stalking me. you know who did that? **[NAME OMITTED]**. you two are acting like a watered down version of **[NAME OMITTED]** at this point. i'm saying this just in case you're not convinced enough to stop. and also so you realize what you've been doing if you haven't already.

that... should be enough. i think. i'm not going to tell anyone about anything if you stop doing this once and for all. i want for you to be able to move on too. it'd be quite nice to not have any of this hanging over us. i hope this 'letter' doesn't come off as too emotionally charged, but do remember this is a situation involving emotions at its core. i need for you to understand im upset and probably will not forgive both of you (if you've read this in it's entirety, i'm sure you understand why. at least i hope so.), but i'll be glad to hear if you decide to drop this. i hope this is comprehensible enough. do let me know if you need any clarification.
